Abstract

The paper investigates, in the framework of branching space-times, whether an infinite EPR-like correlation which does not involve finite EPR-like correlations is possible.

Commentary on:	Muller, Thomas and Belnap, Nuel and Kishida, Kohei (2006) Funny business in branching space-times: Infinite modal correlations.
EPrint Type:	Preprint
Keywords:	BST EPR branching space-times
Subjects:	General Issues: Determinism/Indeterminism
