Abstract

Withdrawn by the author! The main content of this paper has been moved into "Szabó, László E., Does special relativity theory tell us anything new about space and time? (ID Code:1321)"

Keywords: Lorentz's theory, special relativity, space-time, operationalism

Subjects: [Specific Sciences: Physics: Relativity Theory](#)
[General Issues: History of Science Case Studies](#)
[General Issues: Logical Positivism/Logical Empiricism](#)

ID Code: 1320

Deposited By: [E. Szabo, Laszlo](#)

Deposited On: 12 August 2003
