Agric. Econ Czech

A. Škorpíková

Factor conditions
the viniculture
wine sector in
member states
Czech Republic
the selected ca
countries

Agric. Econ. – Czech, 48
310

The paper is a part of the
research plan of the FBE I

...
focused on the analysis of
influencing competitiveness
growing and viticulture. T
based on the hypothesis th
competitiveness of the vin
wine sector could be influe
other things, by specific na
conditions as defined by “
diamond” . This essay de
conditions like the total are
the average per hectare yi
the total wine production a
consumption including the
with this commodity. The c
