Agric. Econ. – Czech

I. Živělová

Possible approaches to the valuation of a firm

Agric. Econ. – Czech, 50 (2004): 204-206

Measurement of business performance by using the value of a firm represents a modern tool of financial management. The paper deals with this problem and discusses basic methodological approaches to the determination of farm' s value, especially by means of methods based on the estimation of future revenues.

Keywords:

farm' s value; methods of determination;
future revenues
