## Measuring intrahousehold allocation of time: response to Anne E. Winkler

*Lisa K. Schwartz*

Research Psychologist and the Associate Program Manager of the American Time Use Survey, Office of Employment and Unemployment Statistics

*Diane Herz*

Economist and the Program Manager of the American Time Use Survey, Office of Employment and Unemployment Statistics

*Harley Frazis*

Research Economist, Office of Employment and Unemployment Statistics.

---

Measuring the use of time by more than one individual in a household, though important, cannot be accomplished within the data quality requirements and budgetary constraints of the new BLS American Time Use Survey; the topic, however, is on the Bureau's agenda for 2002.
