## Self-employed individuals fatally injured at work

*Martin E. Personick*

Economist, Office of Safety, Health, and Working Conditions, Bureau of Labor Statistics

*Janice A. Windau*

Epidemiologist, Office of Safety, Health, and Working Conditions, Bureau of Labor Statistics

---

Individuals working for themselves, especially on farms and in retailing, typically face a higher risk of fatal injury than do their wage and salary counterparts. This article analyzes new information on the self-employed who are fatally injured at work, such as their occupation, age, and other characteristics; the industry they worked in; and the circumstances surrounding their death.
