Occupational employment in the not-for-profit sector

Zack Warren

Economist, Occupational Employment Statistics program, Bureau of Labor Statistics.
E-mail: warren.zachary@bls.gov

The for-profit and not-for-profit sectors differ in regards to the industries with the most employees and the types of jobs that employees most commonly hold; the average wage of each sector is similar, but in a given occupation, the profit sector is generally more highly remunerative .
