A decade of economic change and population shifts in U.S. regions

William G. Deming

Economist, Office of Employment and Unemployment Statistics, Bureau of Labor Statistics

Regional ‘fortunes,’ as measured by employment and population growth, shifted during the 1983–95 period, as the economy restructured, workers migrated, and persons immigrated to the United States. This article examines the economic fortunes of the individual States between 1983 and 1995.
