Labor force projections to 2016: more workers in their golden years

Mitra Toossi

Economist, Office of Occupational Statistics and Employment Projections, Bureau of Labor Statistics.

E-mail: toossi.mitra@bls.gov

As the U.S. population ages, the labor force will grow more slowly during the next decade; the older labor force is projected to grow more than 5 times faster than the overall labor force, which will become ever more racially and ethnically diverse.
