Japanese exchange rates, export restraints, and auto prices in the 1980s

Ana Aizcorbe

Economist, Bureau of Economic Analysis, Washington, D.C.

E-mail: Ana.Aizcorbe@bea.gov

Regression analysis indicates that, after 1986, Japanese exchange rates had a significant positive effect on prices of U.S. domestically produced automobiles and, hence, that Japanese voluntary export restraints were not binding; pre-1986 results are inconclusive, but consistent with binding voluntary export restraints.
