ABSTRACT

[March 2005, Vol. 128, No. 3](#)

Multi factor productivity change in the air transportation industry

John Duke

Supervisory Economist, Division of Industry Productivity Studies, Office of Productivity and Technology, Bureau of Labor Statistics.

E-mail: Duke.John@bls.gov

Victor Torres

Economist, Division of Industry Productivity Studies, Office of Productivity and Technology, Bureau of Labor Statistics.

E-mail: Torres.Victor@bls.gov

Paul Kern, formerly with the same office, also contributed to the calculation of the measures presented here.

Productivity increases in the U.S. airline industry—the Nation's primary intercity mass transportation system—have played a significant role in the industry's cost-containment efforts and its ability to accelerate growth.
