## Measuring defined benefit plan replacement rates with PenSync

*James H. Moore, Jr.*

Economist, Office of Research, Evaluation, and Statistics, Division of Policy Evaluation, Social Security Administration, Washington, DC.

---

A synthetic pension data set created with regression and statistical matching procedures utilizes IRS data to evaluate the effectiveness of a defined benefit pension plan in meeting the income needs of retirees; the findings suggest that variations in replacement rates stem from differences in benefit formulas, earnings, years in the plan, and employment characteristics.
