## Welcome to "e-learning and education (eleed)" Journal!

e-learning and education (eleed)

In co-operation with the [University of Hagen](#) (FernUniversität in Hagen) and the [CampusSource](#) initiative, a new e-journal - e-learning and education (eleed) - was launched in February 2005. The journal offers a platform for new scientific research results from the widespread area of all e-Learning aspects. The articles are freely accessible via Internet (Open Access). They are submitted to a Reviewing process, in order to guarantee a high scientific quality. The topicality remain protected, since each article will be published directly after completed appraisal.

Within the North Rhine-Westphalian initiative "Digital Peer Publishing" (DiPP), the eleed-journal was funded by the [Ministry of Innovation, Science, Research and Technology](#) of the German State of North Rhine-Westphalia. After the start-up funding, the ongoing service is financed by resources of the University of Hagen until 2008. The DiPP-initiative provides a platform on which Open Access eJournals publish scientific research results under the [Digital Peer Publishing Licence \(DPPL\)](#).
