What's New...

[Copyright and Permissions](#)

[Child Health Day Resources](#)

This guide highlights selected resources from the the Maternal and Child Health Library related to the ten health promotion themes that form the organization of Child Health Day (October 1, 2007). Also included are links to historical Child Health Day publications from the U.S. Children's Bureau and to Bright Futures Programs.

[Maternal and Child Health History](#)

This resource highlights documents and reports in the Maternal and Child Health Library that are related to the history of maternal and child health in the United States and health services for children and families. It includes links to federal MCH legislation, regulations, Title V program guidance, and to other history collections.

KNOWLEDGE PATHS

[Child and Adolescent Nutrition](#)

This electronic guide presents resources that analyze data, describe public health campaigns and other promotion programs, and report on research aimed at identifying promising strategies for improving nutrition and eating behaviors within families, schools, and communities. A separate section lists nutrition resources for families. The final part of the knowledge path presents resources on specific aspects of child and adolescent nutrition: child care and early childhood education, food safety, food marketing to children, food security and nutrition assistance programs, and school-based nutrition education and food services.

[Oral Health and Pregnant Women, Infants, Children, and](#)

In Memoriam:

Robert C.
Baumiller,
S.J.

[Adolescents](#) This electronic resource guide points to resources that analyze data, describe programs, and report on policy and research aimed at improving access to and the quality of oral health care. Separate sections identify resources on specific aspects of oral health including child care and Head Start, dental sealants, early childhood caries, fluoride varnish, K-12 education, pregnancy, and school-based care. A separate section lists oral health resources for consumers.

[Preconception and Pregnancy](#)

This electronic guide presents resources that analyze perinatal health statistics, describe effective prenatal care programs, and report on research aimed at improving access to and quality of prenatal care and improving perinatal health outcomes. Separate sections list consumer health resources and resources on specific aspects of preconception and pregnancy: childbirth, depression, drug and alcohol use, environmental concerns, fertility and infertility, nutrition, oral health, and tobacco use.

[Children and Adolescents with Emotional, Behavioral, and Mental Health Challenges](#)

This electronic guide taps into the health, education, social services, and juvenile justice literature to present resources about children and adolescents with emotional, behavioral, and mental health challenges. Separate sections identify resources for families and schools and resources about specific mental health concerns.

[Healthy Social and Emotional Development in Children and Adolescents](#)

This knowledge path offers a selection of current, high-quality resources presented by age group and covering topics such as developmental stages; factors that impact social and emotional development; policies and programs to promote social and emotional well-being in homes and community settings; and strategies for integrating health, developmental, and educational services. Separate sections identify resources for families and schools.

NON-ENGLISH MATERIALS AND RESOURCES

This [languages index](#) identifies resources written in many non-English languages, from Albanian to Yoruba. Select a language to see a list of publications and organization resources. Readers are invited to [submit new resources](#) to add to this index.

MCHB FINAL REPORTS

The Library receives electronic copies of MCHB Projects

final reports. They are cataloged into [MCHLine®](#) and posted on this site on the [Final Reports](#) page.

MCH THESAURAS

The [MCH Thesaurus](#) provides the MCH professional community with a standard vocabulary that serves as a tool for indexing and retrieving materials in any MCH research center, library, or special collection. The thesaurus Web site provides an introduction; an alphabetical list of terms; a rotated list of terms; a set of subject categories; and a search function to search MCHLine® for specific terms. A pdf version of the full thesaurus is also available.

AWARDS

MCHB Award

The National Center for Education in Maternal and Child Health (NCEMCH) at Georgetown University has been awarded a 5-year cooperative agreement from the Maternal and Child Health Bureau (MCHB) to continue its MCH Library services. [Read more.](#)

[Read more](#) about the APEX Award as well as other Awards the [MCH Library](#) has received.
