The *CITE Journal* is an online, peer-reviewed journal, established and jointly sponsored by five professional associations (AMTE, ASTE, NCSS-CUFA, CEE, and SITE). This is the only joint venture of this kind in the field of teacher education. Each professional association has sole responsibility for editorial review of articles in its discipline:

- Technology and Science Education (ASTE)
- Technology and Mathematics Education (AMTE)
- Technology and Social Studies Education (NCSS-CUFA)
- Technology and English Education (CEE)
- Educational Technology: General (SITE)

The *CITE Journal* has a unique Commentary feature, which permits readers to author short responses to articles published in a commentary strand linked to the article. This feature takes advantage of an interactive medium to develop an ongoing, peer-reviewed dialog.

In addition to its discipline-based journals, *CITE Journal* has a [General Educational Technology section](#) and three cross-disciplinary sections: [Editorial](#), [Current Practice](#), and [Seminal Articles](#).

The journal's online medium also allows authors to demonstrate the technologies about which they are writing, including video and audio segments, animation, virtual reality, Web links, and simulations. The *CITE Journal* was established with support from a U.S. Department of Education Catalyst grant.

Sponsored by SITE, ASTE, AMTE, CUFA, CEE
