### ABSTRACT

Inter-disciplinary talents with one professional skill and proficient in English are the type of talents most lacking in the Chinese market and most desired by enterprises. This paper presents a definition for the " profession + English" inter-disciplinary talents, and analyzes the demand of this type of talents by the society. On this basis, factors affecting the training of this type of inter-disciplinary talents are analyzed, and methods to realize this training mode are discussed from five aspects.

### KEYWORDS

Inter-Disciplinary Talents; Profession + English; Training Mode; Teaching Effect
