# Conjugacy classes in Weyl groups and q-W algebras

[A. Sevostyanov](#)

*(Submitted on 10  
Nov 2010)*

We  
define  
noncommutative  
deformations  
 $W_q^s$   
(G) of  
algebras  
of  
regular  
functions  
on  
certain  
transversal  
slices to  
the set
