

# Flows of constant mean curvature tori in the 3-sphere: The equivariant case

[Martin Kilian](#), [Martin Ulrich Schmidt](#), [Nicholas Schmitt](#)

*(Submitted on 12 Nov 2010)*

We present a deformation for constant mean curvature tori in the 3-sphere. We show that the moduli space of equivariant constant mean curvature tori in the 3-sphere is connected, and we classify the minimal, the embedded, and the Alexandrov embedded tori therein.
