

A natural lower bound for the size of nodal sets

Hamid Hezari, Christopher D. Sogge

(Submitted on 18 Jul 2011 (v1), last revised 24 Oct 2011 (this version, v3))

We prove a natural inequality which implies the known lower bounds for the $(n-1)$ -dimensional Hausdorff measure of nodal sets for smooth compact manifolds.

Comments: To appear in Analysis and Partial Differential Equations
