Operads and PROPs

Martin Markl

(Submitted on 6 Jan 2006 (v1), last revised 11 Feb 2006 (this version, v3))

We review definitions and basic properties of operads, PROPs and algebras over these structures.

Comments: 49 pages, to appear in Handbook of Algebra. More citations added

Subjects: **Algebraic Topology (math.AT)**; Algebraic Geometry (math.AG)

Cite as: **arXiv:math/0601129 [math.AT]**
(or **arXiv:math/0601129v3 [math.AT]** for this version)
