New Inequalities for Some Special and q-Special Functions

Authors:	**Mouna Sellami**, **Kamel Brahim**, **Néji Bettaibi**,

Abstract:

In this paper, we give new inequalities involving some special (resp. q-special) functions, using their integral (resp. q-integral) representations and a technique developed by A. McD. Mercer in [11]. These inequalities generalize those given in [1], [2], [7] and [11].
