F. I. Dehayem Nodem, J. P. Kenne, A. Gharbi

[Joint optimization of capacity expansion, production and maintenance in stochastic manufacturing systems](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 195-212.

P. Ruesga, A. Breda, J. M. Sigarreta, J. M. Rodriguez

[Geometry and problem solving](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 213-221.

L. Longpre, V. Kreinovich, W. Gasarch, G. W. Walster

[m solutions good, m-1 solutions better](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 223-239.

U. Akinc

[A note on the linear programming sensitivity analysis of specification constraints in blending problems](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 241-248.

Han-Yu Lin, Yi -Shiung Yeh

[A novel \(t,n\) threshold convertible authenticated encryption scheme](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 249-254.

Fang-Chuan Lee, Ue-Pyng Wen

[A heuristic approach for solving serially distributed storage depots under power-of-two policy](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 255-274.

K. Honda, H. Ichihashi

[Fuzzy local ICA for extracting independent components related to external criteria](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 275-291.

F. El Adnani, H. Talibi Alaoui

[Attractiveness of a positive steady state in a population tumor growth model with quiescence](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 293-304.

Jianwen Chen

[A multi-agent system formalization in mobile environments](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 305-332.

Zhiqiang Sun, Yongan Li, Haixia Yang, Lin Lin

[A stage-structure predator-prey model with functional response](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 333-339.

E. Hizel, N. C. Turgay, B. Guldogan

[Symmetry analysis of three dimensional time independent Schrodinger-Newton equation](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 341-351.

A. I. Kechniotis, Y. A. Theodorou

[New integral inequalities for n-time differentiable functions with applications for pdfs](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 353-362.

L. A. Gili-Alana

[Testing the null hypothesis of no cointegration against seasonal fractional cointegration](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 363-379.

J. Naghipoor, S. A. Ahmadian, A. R. Soheili

[An improved regula falsi method for finding simple zeros of nonlinear equations](#)
Appl. Math. Sci., Vol. 2, 2008, no. 5-8, 381-386.

A. Bennar, A. Bouamaine, A. Namir

[Almost sure convergence and in quadratic mean of the gradient stochastic process for the sequential estimation of a conditional](#)
