Nonlinear Sciences > Exactly Solvable and Integrable Systems

A note on "New abundant solutions for the Burgers equation"

Nikolai A. Kudryashov, Dmitry I. Sinelshchikov

(Submitted on 8 Dec 2009)

Salas, Gomez and Heranandez [A.Y. Salas S., C.A. Gomez S., J.E.C Hernandez, New abundant solutions for tha Burgers equation, Computers and Mathematics with Applications 58 (2009) 514 -520] presented 70 "new exact solutions" of a "generalized version" of the Burgers equation. In this comment we show that all 70 solutions by these authors are not new and cannot be new.
