(Received: 2002-12-28; Revised: )

**Abstract:** Using the standard truncated Painlevé analysis approach, we have obtained some new special types of multisoliton solutions of a (2+1)-dimensional integrable model, the modified Kadomtsev-Petviashvili (mKP) equation.

PACS: 02.30.Jr, 03.65.-w, 02.90.+p

**Key words:** mKP equation, the standard truncated Painlevé analysis, multisoliton solution
