(Received: 2005-3-9; Revised: 2005-7-12)

Abstract: In this letter, the Clarkson-Kruskal direct method is extended to similarity reduce some differential-difference equations. As examples, the differential-difference KZ equation and KP equation are considered.

PACS: 02.30.1k, 05.45.Yv

Key words: differential-difference KZ equation, differential-difference KP equation, direct method, similarity reduction
