(Received: 2000-8-29; Revised: )

**Abstract:** The direct method proposed by Clarkson and Kruskal is modified to obtain some conditional similarity solutions of a nonlinear physics model. Taking the (1+1)-dimensional Boussinesq equation as a simple example, six types of conditional similarity reductions are obtained.

PACS: 03.40.Kf, 02.30.Jr, 03.65.Ge

Key words: conditional similarity reduction, direct method, Boussinesq equation
