

Quantum Physics

# On the linear forms of the Schrodinger equation

Y. Kasri, A. Bérard, Y. Grandati, L. Chetouani

(Submitted on 21 Jul 2011)

Generalizing the linearisation procedure used by Dirac and later by L'evy-Leblond, we derive the first-order non-relativistic wave equations for particles of spin 1 and spin 3/2 starting from the Schrodinger equation.
