On the Complete Integrability of a One Generalized Riemann Type Hydrodynamic System

Denis Blackmore, Yarema A. Prykarpatsky, Orest D. Artemowych, Anatoliy K. Prykarpatsky

(Submitted on 1 Apr 2012 (v1), last revised 10 Apr 2012 (this version, v2))

The complete integrability of a generalized Riemann type hydrodynamic system is studied by means of symplectic and differential-algebraic tools. A compatible pair of polynomial Poissonian structures, Lax type representation and related infinite hierarchy of conservation laws are constructed.
