measurement
of the tensor
electric and
magnetic
polarizabilities
of the
deuteron in
storage-ring
experiments
with

polarized beams

Vladimir G.
Baryshevsky,
Alexander J. Silenko

*(Submitted on 10 Nov
2010)*

Measurement of the tensor electric and magnetic polarizabilities of the deuteron is of great interest, especially in connection with the possibilities of COSY and GSI. These polarizabilities can be measured in storage rings by the frozen spin method
