

## Gaussian Beams of Gravitational Wave

HUANG Chao-Guang

Institute of High Energy Physics, the Chinese Academy of Sciences, Beijing 100049, China  
(Received: 2005-3-22; Revised: )

Abstract: The standard and high-order Gaussian beam solutions for gravitational wave is obtained in the linear approximation of vacuum Einstein equation under harmonic conditions.

PACS: 04.30.-w, 04.20.Jb

Key words: gravitational wave, Gaussian beam
