(Received: 2003-5-9; Revised:)

Abstract: Comparing the relativistic and nonrelativistic frame works, we study the effect of the relativistic center-of-mass vector on the electric polarizability of a compound system.

PACS: 12.39.Jh, 12.39.Ki, 12.39.Pn, 12.40.Yx, 14.20.-c, 13.40.Em

Key words: polarizability, relativistic correction, center-of-mass vector
