Effect of Light

[Aleksandr Bekshaev](#)

Comments: 6 pages, 2 figures. This note was prepared in response to the paper A. Aiello et al, Phys. Rev. Lett. 2009, 103, 100401, but was not published because I could not properly substantiate generalization of the energy redistribution rules for the case of spin flow (Eqs. (14)). However, I feel the interest to the idea and now I present it for wide audience
