Welcome

On behalf of the 1st International Symposium on High Power Laser Science and Engineering (HPLSE2014), we are delighted to invite you to attend HPLSE2014 which will be held on March 16 -19, 2014 in Suzhou city, Jiangsu province, China.

HPLSE2014, organized by Shanghai Institute of Optics and Fine Mechanics (SIOFM), Chinese Academy of Sciences (CAS), will be the first symposium of the HPLSE series.

HPLSE2014 aims at bringing together worldwide scientists and engineers working in high power laser and physics. It covers high energy density physics, high power laser related components, and advanced laser technology applications. It provides a technical forum for reporting and learning about the research and development in science, as well as for launching new applications and technologies in engineering. Hundreds of technical experts from world-wide laboratories will attend the symposium.

Join us and we would like to share with you the latest achievements on laser science and physics. You will enjoy not only the exchange of information on laser science
