High Energy Physics - Phenomenology

# A model for space and time-like proton (neutron) form factors

E. A. Kuraev, A. Dbeyssi, E. Tomasi-Gustafsson

(Submitted on 8 Jun 2011 (v1), last revised 19 Apr 2012 (this version, v3))

A model is suggested to describe the known experimental behavior of nucleon form factors both in space and time-like regions. It implies guarks to be colorless in the region of high intensity chomo-magnetic gluon field inside the nucleon.
