Discover Hawaii

This is the largest most significant research conference in the world. Held every four years, this international gathering is the joint effort of The Electrochemical Society (ECS), The Electrochemical Society of Japan (ECSJ), and The Korean Electrochemical Society (KECS), with the technical co-sponsorship of the Chinese Society of Electrochemistry, the Electrochemistry Division of the Royal Australian Chemical Institute, the Japan Society of Applied Physics, the Korean Physical Society Semiconductor Division, and the Semiconductor Physics Division of the Chinese Physics Society.

PRiME 2016 offers a diverse blend of electrochemical and solid-state science and technology; and serves as one of the largest pacific rim forums for the discussion of our interdisciplinary research. Much of the research being discussed here supports efforts advancing the scientific discipline involved with the renewable energy, biomedical, water sanitation, communications, transportation, and infrastructure sectors.

Discover your community!

Every PRiME meeting is a forum for sharing the latest scientific and technical developments in electrochemistry and solid state science and technology. Scientists, engineers and industry leaders come from around the world to attend the technical symposia, poster sessions, professional development workshops, networking opportunities and social events offered at our meetings. PRiME 2016 will also feature the **6th International ECS Electrochemical Energy Summit** on October 2 focused on Recent Progress in Renewable Energy Generation, Distribution, and Storage.

In an amazing location

The 2016 PRiME meeting, was held at the Hilton Hawaiian Village and Hawaii Convention Center and was an important and energizing get-together. This location, right in the heart of downtown Honolulu, is the perfect setting to really immerse yourself in all that the city has to offer from world class dining, elite shopping and a plethora of outdoor activities. Be sure to check back and explore this page regularly to receive the most up to date information on this meeting! If you have any questions about PRiME 2016, please contact meetings@electrochem.org.

PRiME 2016 is the joint international meeting of:

2016 Fall Meeting of The Electrochemical Society of Japan

230th Meeting of The Electrochemical Society

2016 Fall Meeting The Korean Electrochemical Society

technical co-sponsors:

Korean Physical Society Semiconductor Division

Semiconductor Physics Division of Chinese Physics Society
