# Propagation of thermonuclear flame in SNIa

S. I. Glazyrin, S. I. Blinnikov

(Submitted on 25 Oct 2010 (v1), last revised 29 Dec 2010 (this version, v2))

The propagation of thermonuclear flame in presupernovae Ia is considered. Front parameters are obtained, some speculations on front stability are presented.

Comments: 6 pages, 2 figures, to appear in Proceedings of XI Symposium on Nuclei in the Cosmos, July 19-23, 2010 Heidelberg, Germany. Presented at NIC-XI poster session
