论文题目	作者	期刊名称	发表年度	卷;期	影响因子
Interaction between Thymidylate Synthase and Its Cognate mRNA in Zebrafish Embryos	张玉艳	PLoS One	2010	;	
In vitro antioxidative activities of extract and semi-purified fractions of the marine red alga, <i>Rhodomela confervoides</i> (Rhodomelaceae)	王斌贵	Food Chemistry	2009	113; 4	3.05
Electrochemical impedance spectroscopy analysis for oxygen reduction reaction in 3.5% NaCl solution	匡飞	Journal of solid state electrochemistry	2009	13; 1	1.535
Zoospores of <i>Undaria pinnatifida</i> : their efficiency to attach under different water velocities and conjugation behavior during attachment.	逢少军	Acta Oceanologica Sinica	2008	27; 5	0.716
Wave breaking on turbulent energy budget in the ocean surface mixed layer	孙群	Chinese Journal of Oceanology and Limnology	2008	26; 1	0.5
Vertical distribution of bacterial and archaeal communities along discrete layers of a deep-sea cold sediment sample at the East Pacific Rise (~13° N)	李友训	Extremophiles	2008	12; 0	2.317
Variation characteristics and ecological risk of heavy metals in the south Yellow Sea surface sediments.	何志鹏	Environmental Monitoring and Assessment	2008	0; 0	0.885
Urceolatin, a Structurally Unique Bromophenol from <i>Polysiphonia urceolata</i>	李可	Organic Letters	2008	10; 7	4.8
Two trichodinid ectoparasites from marine molluscs in the Yellow Sea, China, with the description of <i>Trichodina caecellae</i> n. sp.	徐奎栋	Systematic Parasitology	2008	69; 1	1.125
Two new species of Naticidae (Mollusca, Gastropoda) from the coast of China	张素萍	Acta Oceanologica Sinica	2008	27; 1	0.716
Two new bromoindoles from red alga <i>Laurencia similis</i>	苏华	Chinese Chemical Letters	2008	0; 0	0.336
Triterpenoids from the Mangrove Plant <i>Hibiscus tiliaceus</i>	冯超	Helvetica Chimica Acta	2008	91; 5	1.52
Toxin-screening and identification of bacteria isolated from highly toxic marine gastropod <i>Nassarius semiplicatus</i>	王晓杰	Toxicon	2008	52; 0	2.246
Toxic Octabromodiphenyl Ether Is Being Transported From Rich to Poor Via Electronic Waste	张颖	AMBIO	2008	37; 8	1.487
Tidal current observation in the southern Yellow Sea in the summers of 2001 and 2003	刘志亮	Chin. J. Oceanology and Limnology	2008	2; 1	0.5

The release behavior of inorganic nitrogen and phosphorus in sediment during disturbance	王丕波	Chinese Journal of Oceanology and Limnology	2008	26; 2	0.5
The manganese superoxide dismutase gene in bay scallop <i>Argopecten irradians</i> : Cloning, 3D modelling and mRNA expression	包永波	Fish & Shellfish Immunology	2008	35; 0	3.16
The lysosome and lysozyme response in Chinese shrimp <i>Penaeus chinensis</i> to <i>Vibrio anguillarum</i> and laminarin stimulation.	姚翠鸾	Journal of Experimental Marine Biology and Ecology	2008	363; 0	1.75
The integrative expression of GUS gene driven by FCP promoter in the seaweed <i>Laminaria japonica</i> (Phaeophyta)	李富超	J Appl Phycol	2008	0; 0	0.788
The inhibition of mild steel corrosion in 1 M hydrochloric acid solutions by triazole derivative	许凤玲	Materials Letters	2008	62; 0	1.625
