ICO announces Young Researcher Award 2014

"Technical programme of the Symposium shall start on Jan. 12, 2014, at 4:00 PM and closes on Jan. 17, 2014, noon". Details of the technical programme will be announced in due course"

About the Symposium

SYMPOSIUM: As to the tradition of this premier event, the Symposium will cover all aspects of carbohydrate chemistry, biochemistry, biology, analytical tools and technologies. The Symposium will have a format as is followed in its previous ICS Symposia. Lectures along with poster presentations will highlight the latest advances in the field. An exhibition will be organized in conjunction with the Symposium to bring together Industry representatives and equipment manufacturers, so that delegates learn about newer techniques that drive the field.

Important Dates & Notes

Acceptance of abstracts submitted by general delegates up to abstract ID 511 is sent to respective delegates by Nov. 7, 2013. For any reason if an author is still awaiting to hear about the acceptance from Symposium Secretariat, please contact the Secretariat without delay
