心电信号ST段基于径向基函数神经网络的形态识别

刘海龙*、唐奇伶
华中科技大学生命科学与技术学院

本文利用基于自适应模糊系统的径向基函数神经网络对心电信号ST段进行形态识别，取得较好效果。

Shape Identify of Electrocardiogram ST Segment Based Radial Basis Function Manual Neural Network

The article has introduced the shape Identify of electrocardiogram ST segment with radial basic function neural network Based adaptive fuzzy system . Effect of Identify is better.
