摘要 文从软件的研制开发背景、目标制定以及课件在遗传学教学中的应用等方面,论述了"遗传学CAI教学软件的研制开发"的教学改革思想、教学设计、软件的研制程序及其在遗传学教学中的综合运用,有其独到之处。Abstract: From such aspects as development background, objective formulation and application in genetic teaching, we discuss the educational reform spirit that embodied in the "Development of Genetic CAI Teaching Software", the teaching design and the development of the software. We conclude that its synthetic application in genetic teaching is feasible and original.

关键词 遗传学 多媒体课件 (CAI) 教学软件 研制 Keywords genetics multimedia (CAI) teaching software deve lopment
