An Autecological Study on *Iris pseudacorus* L. (Iridaceae)

Ali ENGİN, Nezahat KANDEMİR, Gülcan ŞENEL, Mustafa ÖZKAN
Ondokuz Mayıs University Education Faculty Biology Department, Samsun-TURKEY

Abstract: The ecological properties of *Iris pseudacorus* L., a marsh plant species, were investigated. The analysis of N%, P% and K% in the below-ground and above-ground parts of the plant was carried out. In addition, soil samples were collected and their physical and chemical aspects were analyzed.

Key Words: *Iris pseudacorus* L. Autecology.
