Abstract: Macrofungi samples were collected from Göksun (Kahramanmaraş) district between 2005 and 2007. As a result of field and laboratory studies, 110 taxa belonging to 33 families and 70 genera in Ascomycetes and Basidiomycetes were identified. The distribution, habitat, and collection numbers of the identified species are given.

Key Words: Macrofungi, Göksun (Kahramanmaraş), Turkey
