Abstract: *Aspergillus crustosus* Raper & Fennell, *Eupenicillium egyptiacum* (J.F.H.Beyma) Stolk & D.B.Scott, *Paecilomyces ramosus* Samson & H.C.Evans, and *Penicillium novae-zeelandiae* J.F.H.Beyma were examined for their colonial and morphological properties via visual, light and scanning electron microscopy. These species isolated from soil in different regions of Eskişehir are recorded for the first time in Turkey.

Key Words: Soil fungi, *Aspergillus*, *Eupenicillium*, *Paecilomyces*, *Penicillium*
