The Moss Flora (Musci) of the Sündiken Mountains

Filiz SAVAROĞLU, Süleyman TOKUR

Osmangazi University, Faculty of Science and Arts, Department of Biology, 26480 Eskişehir - TURKEY

Abstract: In this study carried out in the Sündiken Mountains, 83 taxa were identified by the authors. These belong to 21 families and 42 genera of bryophytes. Of these, 64 taxa are new for the B7 grid-square adopted by Henderson.
