Contributions to the Macrofungi of İzmir Province

Fadime YILMAZ ERSEL, Mehmet Halil SOLAK
Muğla University, Ula Ali Koçman Vocational High School, Fungi Program, Ula, Muğla - TURKEY

Abstract: This study was based on the macrofungi collected from İzmir province between 1993 and 2002. As a result of field and laboratory studies 55 taxa belonging to 28 families were identified and are presented as a list. Three of these (*Geastrum badium* Pers., *G. fornicatum* (Huds.) Hook and *Collybia distorta* (Fr.) Quél.) are new records for the Turkish macromycota.

Key Words: Macrofungi, Turkish macromycota, İzmir
