**Abstract:** Several macrofungi specimens were collected during field studies in Kayseri province. After field and laboratory studies, 6 species belonging to 6 families were identified as new records for Turkey. These species are *Clitocybe catinus* (Fr.) Quél., *Conocybe appendiculata* J.E.Lange & Kühner, *Coprinus macrocephalus* (Berk.) Berk., *Guepinia helvelloides* (DC.) Fr., *Psathyrella leucotephra* (Berk. & Broome) P.D.Orton, and *Russula olivaceoviolascens* Gillet.

**Key Words:** Macrofungi, new records, macrofungal distribution, Turkey
