**Abstract:** The macrofungi collected from the Türkmenbaba mountain area in 2001-2003 were investigated. As a result of field and laboratory studies, 84 taxa belonging to 30 families were identified. Seven species belong to the class Ascomycetes and 77 species to Basidiomycetes. Seven of these taxa are new records for the Turkish macromycota.

**Key Words:** Macrofungi, Turkish Macromycota, Türkmenbaba Mountain

Turk. J. Bot., **29**, (2005), 409-416.
