Arabis mollis Steven (Brassicaceae): A New Record for Turkey

Birol MUTLU, Ali A. DÖNMEZ

Hacettepe University, Faculty of Science, Department of Biology, 06532 Beytepe, Ankara - TURKEY

Abstract: A number of specimens of *Arabis mollis* Steven have been collected from Van. The species is a new record for the flora of Turkey. A description, photograph and distribution map of the species are given and an identification key is supplied for its close relatives. The nomenclatural problems between the species and its synonym, *A. christiani* N.Busch, are discussed.
