Four New Records of Myxomycetes from Turkey

İjlal OCAK, İsmet HASENEKOĞLU
Atatürk University, Kazım Karabekir Faculty of Education, Biology Education Department, Erzurum -
TURKEY

Abstract: Four species of myxomycetes are recorded for the first time from Turkey: *Licea variabilis* Schard., *Licea synsporos* Nann.-Brem., *Oligonema schweinitzii* Martin, and *Didymium iridis* (Ditmar) Fries. Furthermore, *Oligonema* Rost. is a new genus record for Turkey.
