A New Myxomycetes Genus Record for Turkey (Stemonitopsis(Nann.-Brem.) Nann.-Brem.)

C. Cem ERGÜL, Başaran DÜLGER

Uludağ University, Faculty of Science & Art, Biology Department, Bursa - TURKEY

Abstract: Stemonitopsis typhina (Wiggers) Nann.-Brem. and Stemonitopsis microspora (A.Lister) Nann.-Brem. (Stemonitales/Stemonitaceae) are recorded for the first time from Turkey. This is also a new Myxomycetes genus record for Turkey.
